

PRADEEP RATHORE

Full Stack Developer (MERN) • AI-Powered Web Applications

pradeepathore877@gmail.com | +91 97522 64618 | [LinkedIn](#) | [GitHub](#) | [Portfolio / Live Demo](#)

PROFESSIONAL SUMMARY

Full Stack Developer with a B.Tech in Computer Science (AI & Machine Learning) and hands-on experience shipping production web applications end-to-end. Comfortable owning the full lifecycle — from API design and database schema to responsive UI and deployment. Strong grounding in Data Structures & Algorithms, OOP, and system fundamentals, with a track record of building and deploying full-stack and AI-integrated projects independently. Seeking a Full Stack / Frontend / Backend Developer role at a product-focused MNC or fast-moving startup.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML5, CSS3, SQL, JSON

Frontend: React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST API Design, JWT Authentication

Database: MongoDB, Mongoose, MySQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools & DevOps: Git, GitHub, Postman, Vercel, Render, Agile/Scrum workflow

WORK EXPERIENCE

Frontend Developer Intern | Rent-Par

Jan 2026 – Present

- Developed and shipped responsive, production-facing web interfaces using React.js and Next.js, translating design requirements into reusable component libraries.
- Integrated REST APIs end-to-end and optimized rendering/UI performance, improving page responsiveness across devices.
- Built a reusable component system with Tailwind CSS, reducing duplicate UI code across features.
- Collaborated cross-functionally in an Agile workflow using Git/GitHub, participating in sprint planning and code reviews.

KEY PROJECTS

AI App Generator | React.js, Next.js, AI APIs, Tailwind CSS | [Live Demo](#)

- Built an AI-powered application generator that converts natural-language prompts into functional UI scaffolding, integrating external AI APIs into a Next.js/React pipeline.
- Designed a fully responsive interface with reusable, prompt-driven components to accelerate app prototyping.

Doctor Appointment Booking System | MERN Stack, JWT, MongoDB Atlas | [Live Demo](#)

- Built a full MERN-stack appointment booking platform with secure JWT-based authentication and role-based access.
- Designed and developed REST APIs for appointment scheduling and management; deployed on Vercel, Render, and MongoDB Atlas for a live, end-to-end production workflow.

macOS-Inspired Web OS UI | React.js, CSS Animations | [Live Demo](#)

- Recreated a macOS-inspired desktop environment in the browser using React.js, with smooth animations and a fully reusable, responsive component architecture.

EDUCATION

B.Tech, Computer Science Engineering (AI & Machine Learning)

Lakshmi Narain College of Technology, Bhopal | 2022 – 2026 | CGPA: 7.99

Class 12th, Govt. Excellence School, Betul | 2021 – 2022 | 71.4%

CERTIFICATIONS

- Full Stack MERN Development — Sheryians Coding School (Ongoing)
- Java Programming Fundamentals — Infosys Springboard
